Re: Advance Notification - Bayville Bridge Improvements

The Incorporated Village of Bayville has received advanced construction notification from Nassau County and Gibbons, Esposito and Boyce Engineers, P.C. dated December 22, 2015 of planned improvements and maintenance to the Bayville Bridge.

Please be advised that Hinck Electrical Contractors, Inc. and their subcontractors will be starting work on Monday, January 11, 2016 and continuing through February 5, 2016. The work effort involves installing new operating equipment and performing upgrades to the Bayville Bridge.

The majority of the work is anticipated to be performed and completed Monday through Friday during daytime working hours, 7:00am to 3:00pm, with the exception of one work day where the scope of work requires a night time shift. The Bridge will remain open to vehicular traffic during daytime working hours.

When testing of the bridge is to occur during daytime hours, the opening time should not deviate much from a typical opening encountered for marine traffic; therefore, not requiring additional manpower on land to direct traffic flow. In addition, construction signs will be placed indicating bridge work is being conducted.

On February 4, 2016, the one night time shift is scheduled to occur between the hours of 11pm to 6am. This work will require the road to be closed for vehicular traffic. For any road closure, the proper procedures and equipment will be provided for all commuters (traffic signs, detour routes, personnel etc.)

The night time shift schedule and timeframe is being finalized, and when the official notice has been received we will send follow up correspondence.

Mayor Rupp and Board of Trustees.
