MUST PROVIDE THE FOLLOWING:

- **COPY OF CURRENT SURVEY SHOWING ALL EXISTING STRUCTURES, MARKED WITH PROPOSED FENCING**
- **FULL DESCRIPTION OF PROPOSED FENCING (TYPE, HEIGHT, LENGTH)**
 - **INDICATE CORNER OR INTERIOR LOT**

AS PER VILLAGE CODE §80-61 (FENCES):

D. Permitted fences serving as a boundary enclosing any rear yard shall not exceed six feet in height. Permitted fences serving as a side or front yard boundary shall not exceed four feet in height along the side lot line starting at the point that aligns with the rear yard setback line and continues toward, and along, the front lot line.

E. Any fence or portion thereof erected upon any property line, or in any yard, abutting any road or highway, shall not exceed 2 1/2 feet in height at any point within a radius of 30 feet from the corner formed by any intersecting roads or highways.

I. All fences shall be constructed so that the finished side faces any lot, street, road or public right-of-way abutting the premises upon which such fence is constructed...
