

Flooding Questionnaire

Village of Bayville
Repetitive Loss Area Analysis (RLAA)

Dear Resident:

You previously received a letter from the Village because your property is in or near a Repetitive Loss Area. **The Village is a voluntary member of the Federal Emergency Management Agency's (FEMA's) Community Rating System (CRS) program.** Incentives for participation include flood insurance premium discounts for residents with flood insurance. As part of this program, the Village is preparing a Repetitive Loss Area Analysis (RLAA).

The purpose of an RLAA is to generate mitigation solutions for individual streets or areas, in contrast to a hazard mitigation or floodplain management plan, which examines community-wide flooding problems and solutions. The Building Department and/or Agnoli Engineering will be inspecting the exterior of each building in the RLAA. **We will be looking at the type and condition of your foundation, local drainage patterns and whether mechanical equipment is elevated.** Once the analysis is complete, a copy of the report can be obtained from Maria Alfano-Hardy, Village Administrator. She may be reached at **516-628-1439 (x. 120)** for a digital or hard copy. The document will also be available on the Village website, <https://bayvilleny.gov/flood-readiness/>.

It would greatly assist the planning effort if we had information on flooding issues that you have experienced while residing in the Village. This information will only be used for internal planning purposes and **will not be distributed.** Please mail or e-mail this questionnaire back to the Village Building Department at 34 School Street, Bayville, NY 11709 or buildingdept@bayvilleny.gov **within 7 days.**

Property address: _____

Contact information: _____
Name Phone (optional)

Company Name: _____
Company Name (if applicable)

1. Has your building/home or property ever been flooded? () Yes () No
 If "yes," please complete this entire questionnaire.
