EXECUTIVE SESSION

REGULAR MEETING
JULY 27, 2026

PUBLIC HEARING
PROPOSED LOCAL LAW C-2026

2026-125 Board closes hearing at 6:36PM

2026-126 Board adopts proposed Local Law C-2026 as Local Law 3 of the year 2026

SITE PLAN HEARING
16 LUDLAM AVENUE

2026-127 Board adjourns hearing to be continued on August 24, 2026.

2026-128 Board approves Warrants and Claims

2026-129 Board accepts prior meetings minutes

2026-130 Board approves request of St. Gertrude's Preschool to hold their year-end picnic at West Harbor Beach on June 2, 2027.

2026-131 Board authorizes Mayor to sign the IMA with Locust Valley Central School District

Waterside Change Order – after discussion the Board tabled the matter.

2026-132 Board denies request of Vantage Realty Partners to distribute advertising materials door to door.

2026-133 Board approves the quote from GoGov for GoNotify Notifications & Alerts for Citizen Engagement

2026-134 Board increases annual salary of Building Inspector Doug Groth

2026-135 Board sets filing fees and deposits for all applications to the Zoning Board of Appeals and all other costs and disbursements for such matters including stenographic and reproduction costs, and counsel fees and costs and disbursements incurred by counsel

2026-136 Board appoints Robert B. Kronenberg, Esq. as hearing officer for all N.Y. Civil Service Law Section 75 Hearings going forward until 1/1/2027

2026-137 Board approves request of Mill River Rod & Gun Club to hold their annual Children's Snapper Derby at West Harbor Beach

2026-138 Board approves nunc pro tunc the estimate from North Shore Tree Service

2026-139 Board authorizes Mayor to sign Easement Agreement with National Grid to replace a section of existing gas main that is located adjacent to the West Shore Road bridge (Bayville Bridge).

2026-140 Board closes Regular Meeting at 8:19PM

**SPECIAL MEETING
AUGUST 3, 2026**

2026-141 Board approve the following final change order for Waterside Contracting related to the dredging project at Creek Beach Marina:

Additional Material Qty Cost	\$ 65,856.00
Quality of Material Charge	\$ 71,089.00
West Harbor Storage Site	\$116,797.29
Extra pilings (on all fingers	\$ 11,200.00
Extra Docks (East Expansion	\$ 36,934.00
Extra Gravel in Parking Lot	\$ 30,375.00
Extra Pilings (East Expansion	\$ 5,600.00
TOTAL	\$337,851.00

Re: Inter-Municipal Agreement between the Town of Oyster Bay and the
Incorporated Village of Bayville
Dog Warden Services

Dear Mayor:

Enclosed find five (5) copies of the above referenced agreement to be signed and notarized.

Once executed, please return all the agreements to:

Town of Oyster Bay – Legislative Affairs
Attention: Sheila Tarnowski, Director
54 Audrey Avenue
Oyster Bay, NY 11771

Thank you for your time and attention to this matter. A copy of the fully executed agreement will be mailed to you along with a copy of the authorizing resolution. Please contact this office if you need additional information.

Sincerely,

FRANK M. SCALERA
TOWN ATTORNEY

Subject: Vehicle Purchase
Attachments: Denooyer Chevy-Village of Bayville 2026 Silverado 2500HD QUOTE- Final 8-14-26.pdf

Maria

See attached quote from Denooyer Chevy.
This includes the snowplow from Dejana, and lighting upfit from Hendrickson Fire.

Denooyer is on the Franklin County vehicle purchasing contract
Hendrickson Fire was low bidder, and they are also the vendor the BFD Co 1 uses for their vehicles
Dejana price is off their municipal price list , not sure if it is Nassau or state contract.

Just a reminder, we will still need to purchase a few items that we plan on installing ourselves.

- Ipad mount- Ram Mounts-460.00
- Toolbox and Bed Cover- RealTruck- 2590.00

RESOLUTION 2026-

LONG ISLAND WATER CONFERENCE
INTERMUNICIPAL PURCHASING AGREEMENT

WHEREAS, Article 13, Town Law Commissioner Elected Districts (“Commissioner Elected Districts”) are governed by the statutory authority set forth under General Municipal Law §103; and

WHEREAS, General Municipal Law §103(16) authorizes Commissioner Elected Water Districts, Towns, Villages, and similarly situated governmental agencies, to purchase from each other’s vendors provided that said vendor’s contract was (a) “let in a manner that constitutes competitive bidding consistent with the state law” and (b) was “made available for use by other governmental entities”, a/k/a “piggy-backing”; and

WHEREAS, Commissioner Elected Water Districts, Towns and Villages are encompassed within the general statutory authority of Article 5-G Municipal Cooperation; and

WHEREAS, Towns and Villages are specifically defined under General Municipal Law §119-n(a), as “municipal corporation” and

WHEREAS, Commissioner Elected Water Districts are specifically defined under General Municipal Law §119-n(b) where “the term ‘District’ means Town Improvement District”; and

WHEREAS, Section 119-o(1) of the General Municipal Law provides further authorization to “municipal corporations and districts” for the “performance among themselves, or one for the other, their functions, powers or duties on a cooperative or contract basis” (“Intermunicipal Agreement” or “IMA”); and

WHEREAS, it is the desire of the municipal entities listed in the Participating Membership Schedule on file with the Long Island Water Conference to fully realize the rights and benefits conferred by State law upon Commissioner Water Elected Districts, Towns

and Villages as enumerated above, by entering into this IMA with other members of the Long Island Water Conference Intermunicipal Purchasing Agreement,

NOW THEREFORE, in consideration of the premises and the mutual covenants herein set forth the parties hereto agree as follows:

ARTICLE 1 DEFINITIONS

Section 1.1 Definitions. Whenever used in this Agreement, the following, words and phrases, unless the context otherwise requires, shall have the following meanings:

Member means the Article 13 Town Law Commissioner Elected Districts and the Villages, Towns and other governmental entities embraced under General Municipal Law (“GML”)§103(16) who maintain their own water distribution systems.

LIWCIPA means the Long Island Water Conference Intermunicipal Purchasing Agreement consisting of the individual municipal Members participating therein.

Common Commodity means those commodities or products which the individual Members of the LIWCIPA have determined to be routine purchases by the membership.

Lowest Responsible Bidder means the lowest Responsible Vendor found qualified to supply the commodity.

ARTICLE II PURPOSE

Section 2.0 Purpose of the LIWCIPA. The purpose of the LIWCIPA is to facilitate a voluntary cooperative program to reduce costs through economies of scale by utilizing the volume buying generated through the “piggy-backing” upon Member contracts as authorized under GML §103(16).

ARTICLE III MEMBERSHIP

Section 3.0 Membership. Membership in the LIWCIPA is open to all Article 13 Town Law Commissioner Elected Districts and those Villages, Towns and

other governmental agencies embraced by GML §103(16) who maintain their own water distribution system within the counties of Suffolk and Nassau.

Section 3.1 Membership List. Members have the discretion to join or leave the LIWCIPA by confirming their status on the Participant Membership Schedule with the Chair of the LIWC Water Supply Coordinating Committee who has the responsibility of keeping the list current.

ARTICLE IV PROCUREMENT; CONTRACTS

Section 4.0 Method of procurement. Each individual member has the **discretion** to initiate a public bid pursuant to GML §103 to procure a Common Commodity.

Section 4.1 Piggy-Backing. Each individual member has the **discretion** to include a provision in its Procurement Contract, in the form set forth below, which authorizes every other individual member of the LIWCIPA to purchase products from the successful vendor.

Extension of Contract to Members of the Long Island Water Conference Intermunicipal Purchasing Agreement

Pursuant to the authority granted this municipality under Section 16 of the General Municipal Law, the successful bidder must extend the terms and conditions of his contract for “apparatus, materials, equipment or supplies to those governmental entities which are members of the Long Island Water Conference Intermunicipal Purchasing Agreement specifically [list all current individual members of the Participant Membership Schedule]

Section 4.2 Members’ Contracts. Each individual Member shall make commercially reasonable efforts to utilize LIWCIPA awards to contract for the purchase of Common Commodities with the chosen Vendor.

ARTICLE V MISCELLANEOUS

Section 5.0 Assignment. This Agreement may not be assigned by any of its signatories.

Section 5.1 Limitations on Rights of Others. The provisions of this Agreement are solely for the benefit of its members and nothing in this Agreement, whether express or implied, shall be construed to give to any other person or entity any legal or equitable right, remedy or claim under or in respect of this Agreement or any covenants, conditions or provisions contained herein.

Quote Number: GPRSQUOTE-301104

GPRS Opportunity Name/Number: 140 Bayville Avenue, Bayville, New York, 11709 -Leak Locate

Submitted By:

Nate Christensen

To schedule, please email:

newyorkinfo@gprsinc.com

GPRS appreciates the opportunity to provide this proposal. We encourage you to visit our website (www.gprsinc.com) and contact any of the numerous references listed. Our insurance certificate and W-9 can also be downloaded [here](#). Please feel free to contact us if you have any questions or need additional information. Visit for an overview of our industry-leading best practices.

SCOPE OF WORK

Leak Locate: We understand the scope of work on this project is to locate a known or suspected water leak in your system. Please mark the boundaries of the work area on the surface before our arrival on site, or provide a representative to meet and advise us regarding the scope of work and desired work areas. We will listen for leaks at the nearest contact points and then locate the leak using a correlator and ground microphone as needed. Our ability to locate the leak will depend on various factors such as depth, pipe material, and noise interference from traffic, machinery, etc. If the project area is in a noisy environment, GPRS may need to schedule a return trip at night for an additional fee. Please visit www.simspec.org for an overview of our industry-leading best practices that will be applied to this project.

- GPRS is not responsible for housekeeping. Any debris, equipment, or other obstructions in the area at the time of scanning could potentially block out needed data.
- A thorough utility search can only be completed if GPRS is given access to all utility structures, interior and exterior. This service is never a replacement for the use of the state One Call system (811).
- All of our technicians have OSHA-10 safety training or greater. Site-specific safety training is not included in this quote. Please notify us if this project requires additional safety training.

EQUIPMENT

- **Underground Scanning GPR Antenna.** This GPR Antenna uses frequencies ranging from 250 MHz to 450 MHz and is mounted in a stroller frame that rolls over the surface. Data is displayed on a screen and marked in the field in real-time. The surface needs to be reasonably smooth and unobstructed to obtain readable scans. Obstructions such as curbs, landscaping, and vegetation will limit the efficacy of GPR. The total effective scan depth can be as much as 8' or more with this antenna but can vary widely depending on the soil conditions and composition. Some soil types, such as clay, may limit maximum depths to 3' or less. As depth increases, targets must be larger to be detected, and non-metallic targets can be challenging to locate. The depths provided should always be treated as estimates as their accuracy can be affected by multiple factors. For more information, please visit: [Link](#)
- **Electromagnetic Pipe Locator.** This receiver can passively detect the signals from live AC power or radio signals traveling along some conductive utilities. Operators can connect a transmitter directly to accessible metallic pipes, risers, or tracer wires to generate a current at a specific frequency. The receiver can then detect the resulting signal along the pipe or tracer wire. Various factors may impact this device's effectiveness, including (but not limited to) access to the utility, conductivity, grounding, and interference from other utilities. The depths provided should always be treated as estimates as their accuracy can be affected by multiple factors. For more information, please visit: [Link](#)
- **Traceable Rodder.** The rodder consists of a copper wire encased in fiberglass. This device is pushed through a pipe with direct access, such as a sewer line at a cleanout or a storm drain catch basin. Operators then induce a current on the wire and trace the signal from the surface. The maximum traceable depth is 10' depending on the soil conditions, and the maximum distance is 200'. Inserting the rodder into deeper pipes within manholes may not be feasible depending on site conditions. GPRS will not access electrical conduits. The signal is not detectable through metallic pipes. For more information, please visit: [Link](#)
- **GPS.** This handheld unit offers accuracy down to 4 inches; however, the accuracy achieved will depend on the satellite environment at the time of collection and is not considered survey-grade. Features can be collected as points, lines, or areas and then exported as a KML/KMZ or overlaid on a CAD drawing. For more information, please visit: [Link](#)
- **Leak Noise Amplification.** The Leak Noise Amplification system consists of a control unit, a microphone, and headphones. It is used to listen for leak noise at water system contact points (valves, hydrants, etc.) to identify a general location of a potential water leak. This system may also be used with a ground microphone to attempt to pinpoint the leak from the surface. Various factors may affect its effectiveness, such as pipe size and material, water pressure, leak size, soil type, and noise interference from traffic, machinery, etc.

- **Leak Noise Correlator.** The Leak Noise Correlator consists of sensors placed on water system contact points. The device will process sound signals between the contact points to provide a position of the leak between the two points. The Leak Noise Correlator's accuracy depends on the feasibility of locating the pipe and requires accurate information from the client regarding pipe attributes such as size and material.

PROJECT COSTS

SERVICE	DESCRIPTION
FIELD SERVICES	Described on Page 2
JOB SUMMARY REPORT	PDF including a brief description of equipment used, findings, limitations, and site photos sent at the conclusion of every job.
MOBILIZATION	Mobilization from closest market city.
TOTAL	\$8,525.00

GENERAL TERMS & CONDITIONS

This proposal is subject to the General Terms and Conditions for Services of Ground Penetrating Radar Systems, LLC posted at [Link](#) (the "Terms and Conditions") and the Authorized User License Agreement for SiteMap® Accounts at [Link](#) and is hereby incorporated by reference into and made a part of this proposal. Customer acknowledges it has read and agrees to be bound by such Terms and Conditions. In the event of any conflict between the terms of this proposal and the Terms and Conditions, the Terms and Conditions will prevail.

1. Customer agrees to meet and perform all requirements described in this document and has fully read and understands all items listed within this document.
2. It is the customer's responsibility to prepare the site for scanning, including clearly identifying areas to be scanned, securing access to all areas required for scanning, removing and keeping these areas clear and free of obstructions. Delays caused by customer's failure to do so may result in an increased price.
3. GPRS does not conduct an investigation, analysis, or interpretation of soil composition, soil/concrete conditions, or geophysical, geological, engineering, or land surveying information. The customer acknowledges understanding that we are merely reporting retrieved data and that we do NOT provide geophysical, geological, engineering, or land surveying services. Customer should contact a professional in those fields if such services are needed. Data collected during may only be suitable for use within the scope of this proposal.
4. If any work to be performed is within a road or street, unless specifically included by GPRS within this proposal, it is the customer's responsibility to provide adequate traffic control to allow GPRS' personnel to safely and efficiently work in the road/street.
5. Time-on-site in excess of 8-hours will be billed at overtime rates.
6. This price assumes that we will be given access to perform the work during normal, weekday business hours. Work performed outside of 6am-5pm Monday-Friday will be billed at overtime rates.
7. These rates assume that there are no certified payroll or prevailing wage requirements for this work. If GPRS receives notice that any of these conditions exist, there will be additional costs.
8. If this proposal is not accepted within 90 days of August 7, 2026, then the pricing may be subject to review.
9. If for some reason the technician arrives on site and the work is cancelled there will be a charge of \$500 per requested technician.
10. If your project is in WV, SD, NM, or HI: State sales tax is not included in the total on this proposal, but will be included on the invoice.
11. Payment Terms are Net 30; or as specified if a current Master Service Agreement is in place. GPRS facilitates the use of ACH or bank-to-bank payment remittance at no cost. A convenience fee will be applied to payments made by credit card.

Subject: CRP Funding for Bayville Free Library
Attachments: SEQRA.docx

Peter,

Nassau County requires a SEQRA determination for the CRP Funding grant the Village applied for on behalf of the Library.

Please see attached draft and revise as necessary, I would like to put this on the 08/24/2026 agenda.

Thank you.

Maria Alfano-Hardy

Administrator/VCT
Village of Bayville
34 School St.
Bayville, NY 11709
516-628-1439, ext. 120

This Type II recommendation has been prepared consistently with the requirements of Article 8 of the Environmental Conservation Law establishing the State Environmental Quality Review Act (SEQRA) and its regulations as set forth in 6NYCRR Part 617.

Proposed Scope of Work includes the purchase of computer equipment for Bayville Free Library.

SEQRA Determination

Based on the above scope of work associated with the Proposed Action, it is appropriately classified as a Type II Action in accordance with 6 NYCRR Section 617.5(c):

(31) purchase or sale of furnishings, equipment or supplies, including surplus government property, other than the following: land, radioactive material, pesticides, herbicides, or other hazardous materials;

With the classification of the Proposed Action as Type II, SEQRA compliance has been completed and no further SEQRA review is warranted.
