

Inside your email, you will see a Link as shown below:

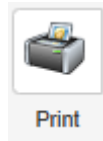

Clicking on the Link, you will see

Click on **Next** to toggle to the Next Page

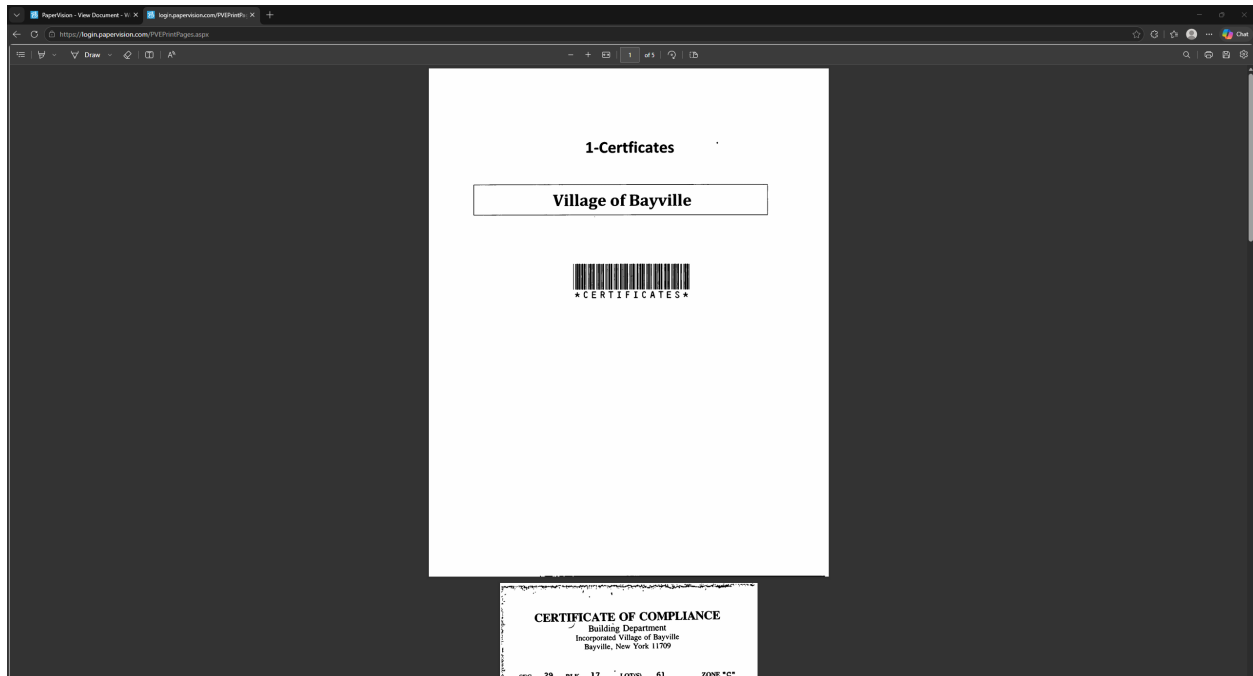

If there are Multiple pages, keep clicking on the Next Icon to view more pages.

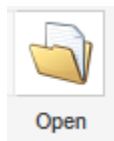

You can print by clicking on the Print Icon

Once you click on the Printer Icon, it will launch your Browser window with the Document in it.

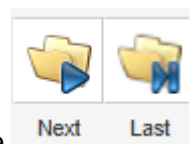

Once you see this, you can use your normal Print button, and that will launch your normal Printer Options.

You can also open the file in your Native Application (i.e., Adobe) by clicking on the Open Icon

That will launch your Default Application for PDF files

If there are Multiple Documents, you will see

Clicking on Next will bring you to your Next Document.
